Hello ,

I have been using uber for 6months now and have had nothing but great experiences ,I think uber is refreshing change to using taxis ,it is no different than if I hired a personal driver, are you also stopping all limo company's from operating as well? I urge the state of sc. to rethink this.

Subject: Right to Ride - Support for Uber in SC

Hello - I travel weekly for business and use Uber all over the country. I can attest to the safety, reliability and convenience Uber drivers provide. It has honestly changed my perception that customer service is not lost in our society.

I wholly support Uber in my home state. I urge PSC to drop the order and work *with* the Uber team to find a solution to ride sharing. States across the nation have successfully come to agreement, I am confident PSC can as well.

Thank you,
Jacqueline Gombach

Subject: Uber

Uber is a safe and successful ride platform that I have used all over the United States. It provides dependable rides and a safe system that is otherwise unavailable in SC. Many times I have needed a cab in SC to either not be able to find one, or finally have one arrive that took 20 minutes to get my location and was dirty and in disrepair. The service that Uber provides is a cash free environment that brings dependability, comfort and safety to transportation in SC. SC and its cities has never been a Taxi Cab state except for people who do not have the means of transportation or have lost their license to drive for one reason or the other. The Uber service is more inviting to all groups who would normally not use a taxi service even when needed. I fully support Uber and their right to operate business in our state.

Regards,

Greg Atkins

Subject: Cease uber

To whom it may concern,

I agree with ceasing the operations of uber in the state of South Carolina. I was once a loyal user of uber until I was overcharged for a 13 mile trip for the sum of \$271.00. I will not use uber again and I think they are really hurting the state with taking away from our cab companies. I hope uber suffers from this ban especially since such a big company like themselves basically robbed a hard working citizen of this country like myself of my hard earned money. Take your operations out of South Carolina!

Maybe I'll try the pink mustache company outside of SC!

Thanks uber for having your email template set up for me! And no I'm not blind copying you.

Thanks,

Shak Patel
